

Welcome to the 2022 Fall Kitsap County EMT Class

Welcome to the Fall 2022 Kitsap County EMT Class. We'll be together for a few months, and right now...it seems like a long time. However, time will fly by, and in the end, it will seem like it wasn't enough time. You have a lot to learn. Some of you are brand new to the concepts of pre-hospital medicine. Some of you have been involved in one way or another for some time now. Regardless of your experience level, we will start from square one.

Senior Instructor: Mike Kehl

Email: manmk@msn.com

Cell/Text: (360) 509-9896

Class Hours:

Dates: September 12- December 10th

Monday, Wednesday, and Friday: 1800hrs. to 2100hrs via ZOOM

Saturdays 0900-1600 Live at Station 41

Location: Central Kitsap Fire and Rescue Station 41;
7600 Old Military Road NE, Bremerton

Text: Emergency Care of the Sick and Injured 12th Ed. with Preferred Package –
Navigate

- Follow up the instructions on the attached postcard to your book.
IMPORTANT. Sign in at jblearning.com

Step 1: Redeem the access code on the postcard. BE CAREFUL There is only one.

Step 2: Create an account.

Step 3: **Class ID Code: 2ED998**

**Step 4: Go to the student profile and change your time zone to Los
Angles/ Pacific Standard time.**

Required handouts:

- Student Course Guide (online)
- Washington State EMT Skill Sheets (online)

Computer Requirement:

Each student needs to have access to a **computer** with an internet connection. This device must be able to upload documents into JBLEARNING's Navigate. If necessary, by JPEG, but preferred by PDF. Check out apps that you can use to make a pdf from your phone.

A computer is necessary to take the required quizzes and tests. A reliable printer is also required. Daily quizzes, along with weekend module exams, are done through our online learning platform, J.B. Learning. J.B. Learning works best in the updated versions of Chrome, Firefox, and Safari.

A reliable internet connection. A poor or non-existent internet connection will not be a reasonable excuse for missing course lectures or assignments.

Students will need a work area in your home to attend lectures. We will expect you to sit up during the Zoom Video lectures. Active participation is expected during the class. The more you put into the discussion, the more you will get out of the course.

Course Overview:

This course follows the U.S. Department of Transportation and Washington State EMS and Trauma guidelines for the training of an Emergency Medical Technician. This course is designed to prepare the participant to challenge the National Registry Exam.

This course also trains the student to perform the following skills in Kitsap County and other Washington State counties based on Medical Program Director's protocols.

- Administration of intranasal drugs.
- Placement of a supraglottic airway.
- Course will cover Travis Law

Successful Completion:

In order for the student to successfully complete this course and qualify for the *National Registry of EMT's* test, the following objectives must be met:

1. Attend and complete all required classes per attendance policy.
2. Pass all chapter quizzes with a score of 80% or greater.
3. Pass all module tests with a score of 80% or greater and maintain an overall test score average of 80% or greater.
4. Show ongoing proficiency in all taught skills.
5. Complete a 10-hour field rotation with an EMS agency.
6. A total of 10 patient care reports must be completed before the end of the course. The students should try to complete this through the emergency and field rotations patient contacts.
7. Pass two practice National Exams with a 75%.
8. Pass the comprehensive final practical skills exam (Including 2 patient care reports).

COVID Adaptations

We are in unprecedented times, trying to train EMS providers to combat the COVID situation. But EMS providers adapt and overcome. By providing all lectures by Zoom and being mindful of COVID safety precautions, we will train you to become a part of the EMS community.

Our COVID adaptations are constantly being evaluated and adapted based on the current CDC standards. We are guests in not only the classroom settings but our field and hospital rotations. We will abide by all our COVID restrictions requested by our EMS partners.

One of these requests was our students had received their COVID vaccinations. All KCEMS EMS students have received their COVID unless documented for medical or religious reasons. All students will wear masks per current CDC guidelines and the current requests of our EMS partners.

Students should also wear gloves when touching any training equipment. Students should use the side door only of Station 4-1 and wipe down any classroom surfaces.

If you are feeling ill, IN ANY WAY: have a fever or febrile symptoms, have a cough, body aches, shortness of breath, sudden loss of taste or smell, fatigue, or nausea – DON'T COME TO CLASS!!! Call or text Mike immediately to declare/discuss your needed absence. If you have medical and/or safety concerns to share with me, or if you need special arrangements in case the building must be evacuated, please make an appointment with me as-soon-as-possible.

Attendance:

Lectures are represented live via Zoom. It is the responsibility of each student to sign on in a timely manner and be ready to participate in the online lecture. Students are expected to be sitting up in a position that shows that they are ready to participate actively. Students will be expected to have their video on during the course lecture. Students are expected to attend all classes.

Class attendance shall be recorded. Students may be dropped from a course after accumulating absences more than **10** percent of the total hours of instruction (lecture and practical). For a 180-credit-hour lecture/practical course, students will be dropped after 18 hours of absence.

Students are responsible for working with their instructor to develop a plan, with deadlines, to make up missed coursework. Students may be asked to provide documentation that the class absence is warranted. Reasonable accommodations will be subject to instructor availability.

In the event of extended absence where several classes have been missed, the Students and the instructor are encouraged to explore options other than those described above, such as incomplete grades or withdrawal.

Regular tardiness will not be tolerated. If a student is going to be tardy due to some unforeseen problem, he/she will contact the Senior Instructor: by cell/text as well as the instructor for that evening's lecture or lab

Please refer to the student handbook for further information regarding the training program's attendance policy.

Reading Assignments:

Each student is expected to read the assigned textbook chapters **prior** to the lecture. Reading the chapters before the beginning of class will allow the student to participate more fully in class discussions and exercises.

Chapter Quizzes:

A quiz will be given on each chapter to which the student is assigned. The quiz must be completed online through the Navigate program that each student received with their textbooks.

Instructions:

1. Each student is expected to complete the quiz. **Any uncompleted quizzes by the deadline will be entered with a score of 0.**
2. **Quizzes open one week before class and close one day after the chapter's lecture.**
3. The passing grade for each quiz is **80%**.
4. Each student is expected to pass the quizzes with an 80% between **two attempts.**
5. **Students have two (2) attempts (original + Redo) to pass these tests.**
6. The **highest attempt** is the score that counts for grading.
7. If a student fails a quiz, they may retake it online **after a 1-hour remediation period.**
8. **A passing grade of 80%** is expected on each quiz, and **a quiz average of 80% must be maintained for the student to be allowed to take the National Registry.**
9. The continual failure of quizzes will cause the student to be counseled and possible dismissal from the course if the average dips below 80%.

Module Tests:

A comprehensive test of all material covered in each module will be given before moving onto the next module. The module exams are each weekend.

Instructions:

1. Each student is expected to complete each module exam. **Any uncompleted module by the deadline will be entered with a score of 0.**
2. **Module tests open at 5 pm on Friday night and close at 11:00 pm on Sunday.**
3. The passing grade for each module exam is **80%**.
4. **Students have two (2) attempts (original + Redo) to pass these tests.**
5. The **highest attempt** is the score that counts for grading.
6. If a student fails a quiz, they may retake it online **after a 1-hour remediation period.**
7. **A passing grade of 80%** is expected on each quiz, and **a quiz average of 80% must be maintained for the student to remain in the course.**
8. Continual failure module tests will be cause for student counseling and possible dismissal from the course if the average dips below 80%.

E-book and Test Prep:

An "e-workbook" and Test Prep are included with the Preferred Navigate program. We highly encourage each student to take advantage of this tool to reinforce reading and lecture concepts. Using Test Prep can help students emphasize information on certain topics and help them get ready for the National Exam.

Skill Sheets:

Each student must master the necessary set of skills required of an EMT. The Skill Sheets which are supplied to each student act as a study guide and proof that the student mastered the skill. Skills evaluations will be scheduled throughout the course. It is the student's responsibility to make sure that they are prepared for these evaluations by practicing outside of class time. Skills practice can be arranged through the Senior EMS Instructor or the course director. The classroom can be made available for group practice by prior arrangement.

Instructions:

1. Locate the skill sheet within J.B. learning/Navigate. Print each skill sheet.
2. Put skill sheets within a binder that you cannot lose the sheets and bring to each Saturday lab.
3. At Saturday lab you will have your passing skill sheets signed off by an ESE evaluator. Keep your signed-off skill sheets.
4. All Skill sheets **MUST** be completed to complete the course.

5. **All assigned required skill sheets must be completed and uploaded to sit for the final exam.**

Patient Care Reports (PCR):

Each student is required to complete ten patient care reports. Your instructors will go through how to write a PCR in SOAP format. The acceptance of each patient care experience will be determined by the Lead Instructor and the Program Coordinator.

Instructions:

1. Go to the PCR section in J.B. learning. Download the PCR form and print out 10 PCR forms.
2. Bring your PCR forms to your field rotations.
3. The goal of the ten PCRs is to fill out ALL of them from your patient encounters on your field rotations.
4. Out of the ten reports you should try to get 5 from your field contacts. Your remaining PCRS to do from your Saturday scenarios if necessary.
5. Number your PCR for which you are submitting credit.
6. As you finish your rotations, complete a PCR and upload the PCR to J.B. learning, for grading.
7. PCRS are graded on a pass/fail basis. The acceptance of each patient care experience will be determined by the Lead Instructor and the Program Director.
8. All PCRS **MUST** be completed to successfully complete the course.
9. **All PCRS must be completed and uploaded to sit for the final exam.**

Field Rotation:

Each student will be required to attend a (10) hour field rotation at one of the available Kitsap EMS agencies.

Instructions:

1. KCEMS Office will send you a sign-up genius link to pick your field rotation time.
2. **This should be signed up by September 19th.**
3. **Field rotations are available October 10th – November 29th.**
4. **Choose wisely.** You should consider this an informal job interview. You want to consider where you want to do your ride-along. All interaction, involvement, attitude, and dress you must act as it is being considered and conveyed to a potential employer.
5. After September 20th this sign-up sheet, will be conveyed to the EMS agencies. If you need to switch or remove yourself from a time, do this judiciously as confusion is noted. Please contact the office, and I will work on switching the shifts.
6. **If you are affiliated with an EMS agency, the student should contact that agency directly, to arrange their ride-along.**

7. **Students must wear appropriate attire as noted below.**
8. At your rotation, try to fill out five of your required PCRs based upon your patient contacts as noted above.
9. The student will document the patient contact on the *Field Evaluation / Report Form*. These forms must be signed by the supervising preceptor on the call.
10. **To complete this assignment**, students should participate in or observe the following:
 - a. Patient history.
 - b. Patient examination and vital signs.
 - c. Patient treatment.
 - d. Patient transport (from out of hospital).
 - e. Patient turnover to receiving facility (from out of hospital).
 - f. The student may document the BLS portions of calls that are treated and transported by ALS crews. If the pre-hospital contact results in a "no transport", the student is expected to complete the patient care report up to the time of patient release or turn-over to another crew. The student should document the patient disposition to include an explanation for the patient release.

Attire for Field Rotation:

When participating in field rotations, students should wear the following attire:

- Dark slacks of sturdy material. These will **not** be denim. Example: Dickies.Carhart.
- Issued course shirt.
- Clean work shoes. Shoes must be closed toe and heel. The shoes should be appropriate for light industrial work.
- Students need to be fitted for N-95s and bring them to their rotation.
- Hair needs to be neat, long hair needs to be up in a ponytail or similar.
- Students will have no visible jewelry with the exception of a ring and a watch.

DOH Required Courses on Vector Solutions

Travis Law

Some courses are too large and long to fit onto the J.B. learning platform. For these classes you will see, days in your schedule allocated for you to complete them. However, several, while long, can be done in advance of the course as a way to get your feet wet.

You will receive a log in account for Vector Solutions. This is where you will do each of these assignments. Upon completion of each of these, at the end of the assignment there is a completion certificate. This certificate must be uploaded into J.B. Learning to complete the module.

Each student will be required to attend to complete an outside Travis course and Supraglottic Airway Endorsement course.

Travis Law- Documentation or dates of the completion of this course will be required on your initial DOH EMT certification paperwork.

Instructions:

1. You received a log in for Target/Vector Solutions. Log in and finish your making your account. If you get picked up with a Kitsap Agency, you will need this for all your EMT training.
2. Complete the module. This course is open at the beginning of class and ends at the Special populations chapter.
3. At the end of the module, is a completion certificate. FILL OUT CERTIFICATE.
4. Upload your certificate into J.B. learning, for grading and notation of completion prior to the date noted on your class calendar.
5. **Keep your certificate for notation of dates on your DOH application.**

Supraglottic Airway Endorsement

At the end of the course, each student will receive a supraglottic airway endorsement from your medical program director. This is specialized training with in your EMT course.

Instructions:

1. You received a log in for Target/Vector Solutions. Log in and finish your making your account. If you get picked up with a Kitsap Agency, you will need this for all your EMT training.
2. At the end of the module, is a completion certificate. FILL OUT CERTIFICATE.
3. Upload your certificate into J.B. learning, for grading and notation of completion prior to the Supraglottic Practical Lab.
4. Keep your certificate for notation of dates on your DOH application.

Infectious Disease- You will not only do an online module but, your SEI candidate Mike Kehl will be teaching this class.

Instructions:

1. You received a log in for Target/Vector Solutions. Log in and finish your making your account. If you get picked up with a Kitsap Agency, you will need this for all your EMT training.
2. At the end of the module, is a completion certificate. FILL OUT CERTIFICATE.

3. Upload your certificate into J.B. learning, for grading and notation of completion.
4. Keep your certificate for notation of dates on your DOH application.

Documentation or dates of the completion of this course will be required on your **initial DOH EMT certification paperwork.**

Instructions:

1. You received a log in for Target/Vector Solutions. Log in and finish your making your account. If you get picked up with a Kitsap Agency, you will need this for all your EMT training.
2. Complete the module. This course is open at the beginning of class and ends at the Special populations chapter.
3. At the end of the module, is a completion certificate. **FILL OUT CERTIFICATE.**
4. Upload your certificate into J.B. learning, for grading and notation of completion prior to the date noted on your class calendar.
5. **Keep your certificate for notation of dates on your DOH certificate.**

Final Didactic Exam:

A comprehensive randomized question test of all material covered in the course will be given before the final Comprehensive practical exam. Students are encouraged to use the "Navigate Test Prep" practice exams throughout the course to help in their preparation for these and the National Registry Exams.

The goal of these final exam is to get students ready for the National Registry Exam.

Instructions:

1. Go to the highlighted FINAL JBlearning module section.
2. Within the module section, there are two final exams.
3. The passing score of **75%** is required for these tests.
4. **Final exams open at November 5 – December 9th.**
5. Students have **unlimited attempts** to pass these tests.
10. **Each student will be expected to successfully pass two consecutive final exams to sit for the final exam.**

Comprehensive Final Practical Exam:

A comprehensive final exam is given at the end of the course. This is a "scenario based" test of the student's ability to perform as an EMT team leader. Each student will be put in a team of 2 students. This team will rotate through 4 different medical and trauma scenarios. Each student will take a turn being the team leader. It is the team leader who is primarily tested during a scenario. A pass/fail will be given for the team leader, based on acceptable standards of practice. If a student fails a scenario, he/she will have a second opportunity on "test day" to pass. If a second failure is

incurred on "test day", the student must arrange with the lead instructor for remedial training and a third attempt. If the student fails the third attempt, the student must retake the course.

Each student must pass the Comprehensive Final Practical Exam to pass the course and be permitted to take the National Registry Exam. Each student will be required to complete a patient care report on each of their practical test subjects.

Personal Conduct and Appearance:

A professional appearance and attitude is expected of all students during class and while participating in field and clinical experiences. Sexually provocative dress is discouraged. If any of the instructors of the class feel the student is acting in an unsafe, unprofessional or immature manner or has inadequate personal hygiene, the student will be counseled. If appropriate action is not taken, the student will be administratively withdrawn from the course.

Pagers, radios and cellular phones will be turned off or set to "silent alert" during class. Talking on cell phones or texting during class or during any clinical experience will be a reason for the student to be expelled from the class for the day. Any such expulsion will require the student to get permission to return to class by the lead instructor. Students may not record video or audio of any class without the instructor's explicit permission at the beginning of EACH INDIVIDUAL CLASS SESSION. Video or audio recording without the expressed permission of the instructor will result in the student being expelled from class.

THERE WILL BE NO TOBACCO USE ON THE GROUNDS OF ANY LECTURE OR LAB LOCATION.

Childcare:

It is the responsibility of the student to arrange childcare in order for the student to be present at every class session. There is no facility on site at CKFR Station 41 or any of the practical lab locations for childcare. We understand that issues do arise, please contact the lead instructor and lab instructor as soon as possible if you will be tardy, absent or must leave early from class. If issues chronically arise, a counseling session will be made with the student and further class participation may be terminated. AT NO TIME WILL CHILDREN BE ALLOWED TO ATTEND CLASS WITH A STUDENT!

Touching:

Due to the nature of this class, students will be required to touch fellow classmates during lab portions of the class. Any report of inappropriate touching or sexual

comments will be investigated and may result in immediate dismissal of the offending student or faculty and the matter referred to the appropriate authority.

Harassment:

Harassment is defined as: "to create an unpleasant or hostile situation by uninvited and unwelcome verbal or physical conduct". Any type of harassment should be reported to the instructor or to the Kitsap County EMS office immediately. Harassment will not be tolerated. The person(s) found guilty of harassment will not be allowed to continue with the EMT class.

Classroom Facilities and Equipment:

It is the responsibility of every student/group to help maintain the areas where the class is being held. This includes all the "break-out" rooms used for lab days as well as the classroom itself and common areas. Students/groups will be assigned clean up duties by a cleaning matrix chart. Students are expected to dispose of all rubbish, to include gum, in the appropriate garbage cans.

Food and drink will be allowed in the class with the permission of the class instructor or lecturer. This privilege may be withdrawn by any instructor at any time.

The class is also responsible for the maintenance and care of the medical equipment used in the class. If the equipment is not in good working order, the equipment should be given to the instructor for repair or replacement. All equipment must be cleaned and returned to storage after each class.

Academic Dishonesty:

If an instructor suspects any form of academic dishonesty the student may be asked to involuntarily withdraw from the class.

Note on Washington State Certification:

At the completion of this course, the student will be given a "certificate of course completion". The course qualifies you to take the National Registry Exam for EMT. Washington State EMT certification is only granted, and a card issued, when you have gained either volunteer or paid status with an agency which provides EMS. Washington State DOH application paperwork must be filled out by the student and his/her sponsoring agency. The student must normally pass a county "protocol test" and have the authorizing signature of the EMS agency supervisor and the County Medical Program Director before a certification card is issued.

National Registry:

Once the student has successfully passed the "End of Course Practical Exam", he/she will be eligible to take the National Registry EMT exam.

**Kitsap County
Student Course Syllabus
EMT Class, Fall 2022**

Instructions:

1. The student must sign up for the test online at nremt.org.
2. An instruction sheet on how to sign up online will be given to each student before the end of class.
3. The cost of the test is at least \$80. This cost is incurred **by the student** and must be paid before the test is scheduled. If this a hardship, please contact the office, who can provide information to get a DOH sponsored voucher to take the National.
4. The student must schedule and take the National Registry Exam within eight weeks of the end of class. It is preferred that the student takes the test as soon as possible after the last day of class.

Criminal Background Check:

All students must pass a Multistate criminal background check prior to beginning any clinical or field rotation. Forms for the criminal background check will be filled out with your course application. These criminal background checks are performed by the Kitsap County EMS and Trauma Council.
